The Happy Invention: The Documentary Value of Picture Postcards

By Katherine Hamilton-Smith

In America, the first picture postcards were printed for the 1893 World's Columbian Exposition in Chicago - making Illinois the birthplace of American picture postcards.

Bring your postcards for possible comments on rarity, value and interest.

Refreshments will be served.

Meetings are open to all.

Boone County Historical Museum is donating to KHS a section of the old **Kirkland Bank counter**. They are also helping with the construction and placement of the much appreciated gift. Hurrah!

What a fun day we had at our last Workshop!

Patty Perkins from DeKalb came again for information about her ancestors in the South Grove area. Digging through our resources, she said "This is a Gold Mine here!"

Judy (McKee) Prindiville brought in a large number of photos and papers from the McKee family. She and sister Donna Turner also donated some wonderful old Kirkland postcards.

Steve Yates, Joe and Joy Gulotta came in to view and enjoy the McKee treasures.

And Jim Bruch donated a 1998 Kirkland Fire Department Building sales notice. Thanks Jim.

Come to help in treasure hunts (no shovels needed)!
